DRPT will present results of the study:

- Preliminary station concept
- Ridership forecasts
- Estimates of probable cost

**Project background:** The Bedford/Franklin Regional Passenger Rail Stop Study built upon previous efforts to study a potential Amtrak stop in the Town of Bedford. The study developed a conceptual design and cost estimate for station-area infrastructure improvements necessary to provide Amtrak service, and analyzed potential ridership, considering two years of data from the Washington-Roanoke state-sponsored Amtrak service. Along with public input, this information helped gauge the effectiveness of a potential rail stop investment at Bedford to improve passenger mobility in the Commonwealth. The study was led by DRPT in cooperation with representatives from Bedford and Franklin Counties, the Town of Bedford, Bedford Area Chamber of Commerce, and Smith Mountain Lake Regional Chamber of Commerce.

DRPT is committed to ensuring that no person is excluded from participation in, or denied the benefits of its services on the basis of race, color, or national origin as protected by Title VI of the Civil Rights Act of 1964. DRPT will also provide reasonable accommodations and interpretive services for persons who require special assistance to participate in this public involvement opportunity as required by the ADA. For accommodations, additional information, or to file a complaint, please contact our Title VI Compliance Officer at 804.786.4440, 600 E. Main Street, Suite 2102, Richmond, VA 23219 or visit our website at [www.drpt.virginia.gov](http://www.drpt.virginia.gov)

**About the Virginia Department of Rail and Public Transportation** DRPT's mission is to improve the mobility of people and goods while expanding transportation choices in the Commonwealth through rail, public transportation, and commuter services.
