

**Your Representation.
Your Community Funding.
Our Civic Duty.**

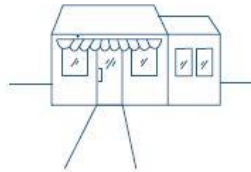

Why?

The results of the 2020 Census will help determine how hundreds of billions of dollars in federal funding flow into communities every year for the next decade. That funding shapes many different aspects of every community, no matter the size, no matter the location. Census Bureau data is used in all kinds of ways, including:

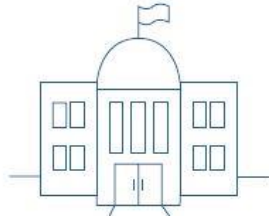

Residents use the census to support community initiatives involving legislation, quality-of-life and consumer advocacy.

Businesses use Census Bureau data to decide where to build factories, offices and stores, and these create jobs.

Local government officials use the census to ensure public safety and plan new schools and hospitals.

Real estate developers and city planners use the census to plan new homes and improve neighborhoods.

When?

By April 1, 2020, every home will receive an invitation to participate in the 2020 Census. In mid-March, households will begin receiving official Census Bureau mail with detailed information on how to respond to the 2020 Census.

How?

You will be able to respond:
Online | By phone | By mail.
