

Kim Hyland
Executive Director
Fluvanna-Louisa Housing Foundation

Under Kim Hyland's leadership as Executive Director, the Fluvanna-Louisa Housing Foundation has expanded its reach and ambition. Since 2020, she has doubled the capacity of the Essential Home Repair Program and is spearheading the organization's first affordable housing development projects in Louisa and Fluvanna counties. The first Executive Director to reside within the service area, Kim brings firsthand understanding of rural housing challenges and has built strong working relationships with the county governments, local businesses, and regional nonprofits. Her ability to forge consensus and craft context-sensitive solutions has been central to FLHF's growth.
